Sir:

In response to the Notification of Defective Response, the period for which to respond extends until September 10, 2007, please consider the following.

FACTS IN SUPPORT

1. On January 4, 2006, the undersigned attorney caused to be filed a National Stage Application that was accorded United States Patent Application Serial Number 10/563,458.
2. As part of the original filing, an Application Data Sheet and a Transmittal Letter to the United States Designated/Elected Office (DO/EO/US) Concerning a Submission under 35 U.S.C. § 371 were provided.
3. The Application Data Sheet correctly identified the International Application Number as PCT/SE2004/001123.
4. The Transmittal Letter, unfortunately, had a typographical error indicating the International Application Number as PCT/SE2004/00123.
5. On July 31, 2006, the Patent Office mailed a Notification of Missing Requirements indicating a Declaration from the inventors was required.

6. On October 16, 2006, a Declaration in response to the Notification of Missing Requirements was filed. The Declaration correctly identifies the International Application Number as PCT/SE2004/001123. As part of this transmission, the Application Data Sheet was resubmitted.
7. In response to this submission, the US Patent Office Issued a Notification of Defective Response specifically pointing out: "The declaration submitted on 10/16/06 and the information from the international application number originally submitted on the transmittal letter do not match."
8. As identified above, the declaration in fact has the correct International Application Number and the transmittal contained a typographical error, which was made without deceptive intent.
9. The undersigned wishes to thank Mr. Jon Anderson for the courtesy provided during a telephone call of August 17, 2007, were the undersigned and Mr. Anderson discussed the above.

Provided herewith is authority to charge Deposit Account No. 08-2623 for the required surcharge of \$130.00.
